Learning Experiences

Welcome Group Orientation
Students will work in teams of 3 to undertake an orienteering course set up around the Bobbin Head picnic grounds. Each team member will have a role and teams must negotiate their role and how these will be shared.

This activity will then require students to work collaboratively to read maps, identify locations and find answers to complete the orienteering course.

Initiative Games
Students will work in small groups to complete a series of games. Each game is designed to assist students to understand the qualities of an effective leadership team and include the plank walk, cannonball run and magic carpets. On completion, students will reflect on each activity and the qualities they thought were important in providing an effective outcome.

Environmental Problem Solving
Students will be provided with a scenario about an environmental issue which they will be encouraged to collaborate to find a solution. This activity depends on weather conditions and may include nest box building, water quality testing or animal surveys.

Bushwalk
A walk through the bush is a great way to discover some of the natural and heritage features of the area. During the walk, the students will visit three different environments and also learn about the special connection the local Aboriginal peoples had with the land. Included in this is an opportunity for students to discover a ‘magic spot’ - a quiet area for self-reflection.

School lead activity
Schools also have an opportunity to run a school specific leadership workshop with their students. The Gibberagong building has a large learning space with IWB and wifi facilities for groups to use.

Key Syllabus Outcomes and Content

**PDHPE**

SLS3.13 Describes safe practices that are appropriate to a range of situations and environments.

DMS3.2 Makes informed decisions and accepts responsibility for consequences.

PSS3.5 Suggests, considers and selects appropriate alternatives when resolving problems.

**COS3.1** Communicates confidently in a variety of situations.

W Accepts responsibility for personal and community health.
